linkedin.com/in/surajhaldar

*Front-End Developer with extensive experience building, maintaining, and optimizing web applications using **React.js**, **Redux**, **HTML5**, **CSS3**, and modern JavaScript (ES6+). Passionate about crafting responsive, high-performance interfaces, ensuring code quality, and implementing robust front-end architectures. Collaborative team player skilled at integrating RESTful APIs, debugging, testing, and driving delivery with modern DevOps practices.*

WORK EXPERIENCE

SDE 2 (React.js Developer)   **Hyderabad**
iGuru Portal Services Pvt Ltd   *April 2025 - Present*

1. Led front-end development of ERP modules using **React.js**, improving performance and user experience across critical dashboards.
2. Collaborated closely with the backend team to integrate and extend ASP.NET Web API endpoints.
3. Mentored junior developers and enforced adherence to clean code practices through regular code reviews and pair programming sessions.
4. Implemented and optimized CI/CD build processes using Azure DevOps, improving deployment reliability and frequency.

SDE 1 (React.js Developer)   **Hyderabad**
iGuru Portal Services Pvt Ltd   *June 2024 - March 2025*

1. Developed scalable Single Page Applications (SPAs) using **React.js** and managed application state with Redux.
2. Implemented secure, JWT-based authentication flows and integrated RESTful API consumption from the frontend.
3. Contributed to the design and implementation of reusable component libraries, improving code consistency and development speed.
4. Enhanced UI responsiveness and cross-browser performance using Bootstrap 5 and custom CSS.
5. Improved team productivity by leveraging Git workflows and modern development tools.

Frontend Developer   **Hyderabad**
iGuru Portal Services Pvt Ltd   *April 2023 - May 2024*

1. Developed responsive UIs using both **React and Angular** with Bootstrap, ensuring cross-device compatibility and fast load times.
2. Integrated REST APIs using Axios and Angular HttpClient, handling form validation and dynamic data rendering.
3. Built custom reusable components in React and directives in Angular with TypeScript, boosting development speed by 30%.

SKILLS

Frontend: React.js, Redux, Angular, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive & Mobile-First Design, UI/UX Principles

API & Data: RESTful Integration, Axios, Angular HttpClient

Testing & Debugging: Jest, React Testing Library, Chrome DevTools

DevOps & Version Control: Git, Agile/Scrum Workflows, CI/CD (Azure DevOps)

Performance: Web Performance Optimization Techniques, Bundle Analysis

INTERNSHIP

MERN Stack Developer   *2022 - 2023*
NxtWave Disruptive Technologies

EDUCATION

B.E. Mechanical Engineering   **2016 - 2020**
Ballarpur Institute of Technology (BIT)

PROJECTS

IPL Dashboard ([Live Demo](#))
- Built a responsive React SPA with React Router for dynamic navigation and team-wise match display.
- Fetched IPL team and match data via REST APIs, handling loading states, 404 errors, and invalid routes.
- Optimized components for fast rendering and smooth user experience across devices and screen sizes.

Emoji Memory Game ([Live Demo](#))
- Developed a memory-based game using React with dynamic score calculation and game status tracking.
- Used reusable components and React hooks for managing state, gameplay logic, and reset behavior.
- Implemented responsive layout and visual feedback to enhance gameplay experience.

Food Munch Responsive Website ([Live Demo](#))
- Created a modern, static food delivery website using HTML5, CSS3, and Bootstrap.
- Designed fully responsive grid-based layouts with interactive elements for mobile-first design.
- Ensured cross-browser compatibility, smooth scrolling, and polished UI aesthetics.
